

◇公司简介

兴海港创立于1998年,是福建领先的五金产品加工制造商。拥有良好的基础设施,完整的生产链,是工业加工的终端供应商。我司主要从事五金产品加工,在铝合金生产开发、有色金属阳极氧化及电解铝等相关贸易及工程技术服务上占绝对优势;是目前中国优质的氧化铝、电解铝供应商且经政府相关部门备案的企业之一。目前兴海港有500多名员工,业务遍及世界508个国家和地区。

在铝合金阳极、铝合金加工、铝合金挤压和铝合金压铸等领域,公司深入贯彻落实新发展理念并为客户提供具有竞争力、安全、可信赖的产品和服务。一直以来,我们与各类品牌商开发合作,持续为客户创造价值,释放个人潜能,激发组织创新。兴海港将坚持围绕客户需求持续创新,加大基础研究投入,厚积薄发,推动制造业进步。

兴海港携手合作伙伴,提供高质量、安全放心的加工环境,开放灵活、安全,高品质的产品,稳定可靠、安全可信和可持续演进的质量服务。兴海港制造业产品,正在帮助人们享受高品质的生活和健康体验。

Established in 1998, SEAPORT is a leading hardware processing manufacturer in Fujian China. With a good infrastructure and a complete production chain, it is a terminal provider of industrial processing. Our company is mainly engaged in hardware products, with absolute advantages in related trade and engineering s technical ervices of aluminum alloy production and development, non-ferrous metal anodizing and electrolytic aluminum and etc. We are one of the high-quality alumina and electrolytic aluminum suppliers in China and has been registered by relevant government. At present, SEAPORT has more than 500 employees and its business covers more than 50 countries and regions in the world.

In the fields of aluminium alloy anode, aluminium alloy processing, aluminium alloy extrusion and aluminium alloy die casting, our company deeply implement the new development concept and provide customers with competitive, safe and reliable products and services. All along, we have developed and cooperated with various brands to create value for customers, release personal potential and stimulate organizational innovation. Seaport will continue to innovate around customers'needs, increase investment in basic research, accumulate more and develop more, and promote the progress of manufacturing industry.

Seaport cooperates with partners to provide high-quality, safe and secure processing environment, open, flexible, safe, high-quality products, stable, reliable, safe and reliable and sustainable evolution of quality services. Seaport manufactured products are helping people enjoy high quality life and health experience in life

主要产品介绍

INTRODUCTION OF MAIN PRODUCTS

铝合金挤压

挤压/机加工/精加工/表面处理/阳极氧化

5大特点

拥有完整的生产链

每道生产工序具有严格的品质管控

高效生产保证交期

欧洲标准出货包装

.先进制造业荣誉称号

挤压设备加工吨数: 700-2000吨

广泛应用于: 淋浴房类、汽车类、动车类、冰箱把手类、 手机类、电脑类、手电筒类、太阳能类、散热器类

(B) 铝合金压铸

| |尺寸精度高||生产快速||抗拉强度高 | | 内部结构稳定 _|

金属液是在压力下填充型腔的,并在更高的压力下结 晶凝固,常见的压力为15—100MPa

压铸是一种精密的铸造方法,经由压铸而铸成的压铸 件之尺寸公差甚小,表面精度甚高,在大多数的情况 下,压铸件不需再车削加工即可装配应用,有螺纹的 零件亦可直接铸出。从一般的照相机件、打字机件、 电子计算器件及装饰品等小零件,以及汽车、机车、 飞机等交通工具的复杂零件大多是利用压铸法制造的

铝合金阳极氧化

阳极氧化特色

防护性

装饰性

绝缘性

提高与有机涂层的结合力

提高与无机覆盖层的结合力

主要材料: 2a12 6061 6063 6082 7075 加工工艺: 镀铬 镀镍 阳极氧化 电解等等

专利产品 厂家直销 优质保障
